All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

There is talk of criminal proceedings following the insurance investigations.

The recent rains in many portions of Florida have helped the winter crops of vegetables.

There is no sure thing yet for McClellan or Hurst in New York in the mayoralty election.

It is time for The Congressional Record to make its appearance and help swell the mail sacks.

If the money received from the corporations should only prove to be tainted, would it go in the campaign?

"Everybody Works But Father" is the title of a new song that is up for popular favor, but mother fails to see the joke.

If the hyacinths could only be killed out of the rivers there would be no more beautiful pastime than boating on these waters.

The Ohio State Senate is a tie on Democrats and Republicans—18 each, with one independent. It is lucky to be independent sometimes.

The Panama canal has eleven millions as a starter with which to go ahead with the work. It may be sufficient to keep up the work of the press agent.

The cool weather necessitates putting up stoves and starting fires. See that your chimneys are in good repair, so you may not be visited by a conflagration.

If Japan gets that nice little sum of two and a half million from China and a few other contributions they will have quite a sum as their reward for the war.

Marshal Oyama, after doing such valiant work on the field of battle, has completely captured the people of Tokio. He deserves all the honors conferred.

The white children of Chicago refuse to attend the schools where colored children are sent. This will no doubt prove a serious problem for the school authorities.

The big four of the Senate are Dewey, Smoot, Burton and Mitchell. They will be great gallery attractions, provided their dates are not cancelled by the courts.

The Southern Bell Telephone and Telegraph Company will decide on Wednesday next whether it will increase the capital stock from one to thirty million or not.

A man in Atlanta who was looking for the "champagne" headquarters, was referred to the Piedmont Hotel bar. He didn't know that a Boston man was now in charge.

There are a large number of tent shows heading for Florida at the present time, an indication that winter has arrived "up the country." Some of the smaller towns have two or more billed to visit them.

WORTHY OF ATTENTION.

The attention of The Sun's readers is called to a few additional "Don'ts" relating to woodlots, which it would be well for every owner of a farm in Florida to preserve, as they will prove of value in the years to come when the timber now being slaughtered will be in demand for many purposes on every farm:

Don't select the best trees in a woodlot which needs weeding. Nearly every woodlot is composed of a mixed stand in which dead and unsound trees, weed trees, and sound, useful trees are intermingled. If you select and use only the choicest living trees the stand will grow poorer instead of better and in time will become almost worthless. An improvement cutting, which even at a little cost removes the weed trees and those which are dead, crooked or otherwise of little worth, will give the remaining stand a clear start. The woodlot quickly responds to such treatment, improving vigorously under the new conditions. The larger yield of better quality in due time more than repays the labor.

Don't forget reproduction. In thinning your woodlot have an eye to the young growth. Spare it as much as you can in felling and hauling the logs. Give the seedlings the chance and they will seize it and grow into saplings and poles. Saplings and poles are already valuable and little later still are themselves grown trees.

Don't do all your cutting in one spot just because it is a trifle more convenient to do so. By taking a tree here and there where it can be best spared or is actually better down you will secure just as much wood and at the same time draw as lightly on your future supply. Where the stand is composed only of old trees you may of course often make clear cutting to advantage, especially where neighboring seed trees will reseed the opening to a new crop.

Don't let the carelessness of other persons do the damage to your woodlot by fire which you refrain from doing yourself. A fire in a neighboring field may creep into your woodlot and burn over it, scorching the trunks of the trees or even setting the crown ablaze. It is worth while in the dangerous season to see that the borders of the woodlot are clear of inflammable material. Especially clear away the leaves so as to form a miniature fire lane about the forest. Forbid the careless use of matches and the building of camp fires, and see that your directions are obeyed.

Don't be in too great hurry to realize on your woodlot investment. Be satisfied with a permanent revenue, which is the interest on your forest capital. You may materially increase this interest by managing the woodlot itself so that the thinnings always bear a wise proportion to the yield. Meantime the steady rise in the value of all forest products will add little by little to the market value of your timber. Years hence, when you need it, the woodlot which has supplied you all along will in all probability bring you far more than at present. Or you may leave it to your children, who in turn will find it a most acceptable bank account.

M. Witte, the Russian premier, has tendered his resignation. But the czar says no, and tore the paper to pieces on which the resignation was written, hurling the pieces at the feet of the man who refused to pay one kopeck to the Japanese. We can almost see M. Witte's end.

Senator Mitchell of Oregon died at 11:45 a. m. on Friday. He was said to be very much troubled over the land frauds cases, which no doubt hastened his death, which occurred in a hospital at Portland.

Gen. A. W. Gilchrist will not be a candidate for the Legislature, but he may be in the race for governor. He is a gentleman that would do honor to the office.

Nobody except the dealers in that commodity is paying much attention to silver in these days. A few years ago the market price of silver could not go up or down a few points without the fact calling out long columns of political editorials and long political speeches; now the white metal can jump 25 per cent in two months without attracting any attention outside of market circles. As a matter of fact, the price has gone from 50 cents to 65 cents per ounce within the last two months. A commercial paper says in its financial department that this rise may have some effect on the Philippine currency, as the bullion value of the peso, which passes for 50 cents, is now 51½ cents.

The killing of Deputy Sheriff E. E. Johns of Nassau county is no doubt the result of an old grudge held against that officer by men who feared and hated him as an officer. He was a terror to evil-doers and was an important witness in a case in the United States court at Jacksonville. The assassins should be hunted down and punished to the full extent of the law.

Florida syrup is becoming so popular that there is a demand for it in every household. Those who looked upon it some time ago as an ordinary adjunct to the common cooking, now regard it as almost indispensable for making delicate pastry. It is fast taking the place of all other syrups and is a healthy article for use for the family.

The Russian revolutionists are in luck. They claim they can buy arms cheaper from Russian officers than they can get them smuggled into the country, and are patronizing home institutions.

The St. Augustine Record Co. will erect a two-story brick building for its own use. The Record is one of the bright papers of the State, ably managed.

Live Oak has got started and there is no telling where they will stop. A skyscraper for an office building is the latest project.

The special trade edition of The Gainesville Sun has reached us and it is a fine publication.—Sumter County Times.

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
